POWERBALL JACKPOT COULD REACH \$475 MILLION

February 22, 2017

LITTLE ROCK – It's already \$403 million dollars, and it's already the tenth-largest jackpot in Powerball history, drawing tonight. But Powerball officials estimate if it doesn't hit tonight, the jackpot could rise to a staggering \$475 million for Saturday's drawing.

Tonight's Powerball drawing will be the 19th since the most recent jackpot win. But plenty of Arkansas players continue to win playing Powerball, including today's claim of \$50,000 by Charles Keffer of DeWitt, who bought his winning Powerball ticket at Dodge Store in Stuttgart. Since Powerball sales began in Arkansas in 2009, there have been million-dollar Powerball winners all across the state, including in Uniontown, Conway, Hot Springs, Grubbs, Little Rock, De Queen, Searcy, Berryville, and Jacksonville.

Besides Powerball's tenth largest-ever \$403 million level for tonight, Friday's Mega Millions jackpot is \$64 million, and tonight's Natural State Jackpot top prize is \$135,000. All this means Arkansas players who get the lottery's 5 Buck Bundle – a package which includes one Powerball, one Mega Millions and one Natural State Jackpot ticket – can have a stake in all this high jackpot action for a mere sawbuck.

(To get the Bundle, Arkansas players must simply buy a \$3 Powerball ticket with PowerPlay and a \$2 Mega Millions ticket with Megaplier to receive a free \$1 Natural State Jackpot ticket all February long. All three tickets will be Quick Picks. This promotion is not available from lottery TVMs or if purchased separately.)
