I had the wrong day and date for the next Mega Millions draw. It should be *Friday, May 17*. See corrected version below:

**Mega Millions Jackpot Close Behind, with Estimated
Jackpot of \$190 Million**

On Tuesday, May 14, the Mega Millions draw saw seven winners throughout the U.S. who matched five numbers and are \$250,000 richer (two lucky players in Georgia and one each in D.C., Delaware, Illinois, Maryland and New York). There were also 65 winners of \$10,000.

The jackpot for Friday, May 17, is an estimated \$190 Million, which has a cash option of \$140 Million. That drawing will be held at 10:00 p.m. CST.

Mega Millions® is a multi-state jackpot game. Drawings are held at 10 p.m. CST every Tuesday and Friday. Five numbered balls are drawn from 1 to 56 and one numbered ball is drawn from 1 to 46. If all your numbers match those that are chosen, you win the jackpot, which starts at \$12 million and grows until someone wins. If other players also match all six numbers, the prize will be shared in equal amounts. Each Mega Millions® play is \$1. For an additional dollar, you can add the Megaplier® option to multiply non-jackpot winnings by 2, 3 or 4 times.
