

**110 Arkansas Winners
in CASH 3
with Three Very Lucky Numbers
7-7-7**

**Press Release
From the Arkansas Scholarship Lottery
Little Rock, Arkansas
Thursday, June 26, 2014**

Arkansas **CASH 3** is a lottery game played in Arkansas where the player buys a ticket for a dollar and attempts to match a three-number sequence between 000 and 999 to a drawn number for a Jackpot that is \$500 for exact match draw tickets. While this is a game of chance, there are plenty of people with advice on how to beat the game and walk away with a cash prize, well **110 Arkansans** were listening last night. Prizes paid out for last night's **CASH 3** drawing totaled over \$27,500.

Some players feel that there is a reason some numbers inevitably show up more often and they choose to put their money with the *hot numbers*, well the *hot numbers* in Arkansas last night were **777**. Lottery strategy websites contain hit frequency analysis programs where players can search for whether their specific numbers are hot and what numbers are not. Arkansas **CASH 3** offers the *thrill of the draw* daily, this is the game where those savvy players watch and play those *lucky number* hunches.

Some players choose to buy **CASH 3** (and CASH 4) tickets based on studying trends that, they believe predict the outcome. In truth, every single ticket bought for a lottery game drawing has *exactly* the same equal chance to win, as every other ticket purchased for that drawing. Until the drawing takes place *all tickets* for the drawing are *positively equal*, but from the first number drawn those equal odds start to change into groups of players with tickets that match the numbers drawn. **CASH 3** is a daily played game, in Arkansas, with different ways to win a prize from \$40 to \$500. The odds of winning one of those prize's range from 1 in 167 to 1 in 1,000, some of the best odds of winning a prize, in a lottery game offered anywhere. A single draw play ticket is offered at fifty cents or one dollar for a chance to win up to \$250 for the 50 cents play or \$500 for the \$1.00 play, based on how the ticket is played.

In the Arkansas **CASH 3** evening drawing, **Wednesday June 25th**, the lucky numbers **7 – 7 – 7** were drawn, this anomaly is called **TRIPS**, for triple numbers. Since the Arkansas Scholarship

Lottery started the **CASH 3** game, December 14th, 2009, the combination of **777** has come up *only two other times* in Arkansas **CASH 3** history. It has *never come up* in Arkansas CASH 4 (7777) history.

There has been **3074** separate Arkansas **CASH 3** drawings, since December 14, 2009. In all those separated Arkansas **CASH 3** drawings **TRIPS** (triple number drawn), have *only been drawn twenty-two* (22) other times. These are the only other triple number sets ever drawn in Arkansas **CASH 3**: 000=1 – 111=3 – 222=3 – 333=3 – 444=3 – 555=1 – 666=3 -777=2 – 888=3 – 999=0

It's as easy as 1-2-3!

Playing Arkansas **CASH 3** is easy. It's the game where you can play today and get paid today. You can win a *top prize* of \$500 with a \$1 *Straight* play, or increase your chances of winning with a *Box, Straight/Box, or Combo* play. So many options to try! Simply select you're lucky numbers and play it your way any day – twice a day (Evening only on Sunday). Midday and evening drawings offer two chances to play - and win! Arkansas **CASH 3** game information, play rules and regulations are posted at all lottery retail locations and at myarkansaslottery.com

There was *no top prize winner* in the **Natural State Jackpot** Wednesday night, tonight's Jackpot is **now \$210,000**. **Mega Millions**® Jackpot Friday is estimated at **\$33 Million** and the Saturday night **Powerball**® Jackpot is estimated to be **\$80 Million**.

Good Luck and thanks for playing Arkansas,

K. Kevin McCarthy
