

## Cash 4 Lottery Game Explodes With Quad 1's and 21 Big Winners

Little Rock – August 2, 2011 – Today's midday Cash 4 draw at the Arkansas Scholarship Lottery headquarters has big winners all over the state running to Claim Centers to get their prizes.

Cash 4 ticket prices start at 50 cents, with players picking four numbers from zero (0) to nine (9). This time, the winning numbers were 1 1 1 1. There is only a one in 10,000 chance that combination will come up. If those were your numbers for the Tuesday midday draw, here's what you won: on a 50 cent ticket, \$2,500; on a \$1 ticket, \$5,000, and on a \$2 ticket, \$10,000. All in all, \$97,500 is waiting to be paid out on 21 winning tickets. Cash 3 and Cash 4 are fun to play and frequently pay good prizes, but today was a Cash 4 bonanza. There were 5 prizes at \$2,500; 15 at \$5000, and 1 at \$10,000.

Since three stores in Arkansas had two winners each, it is possible that some winners played their favorite numbers and won twice! Cash 3 and 4 are the two Arkansas-based draw games, and the winning numbers are chosen at random in two drawings each day Monday through Saturday, with one drawing on Sunday. Both games are easy to play and hard to describe: A player simply picks his numbers and waits for the draw. There are other winning factors such as whether you play a straight or a box, but with 1 1 1 1, the answer is just plain YES.

So, who won? Players at:

Lone's BP #10 in Conway	\$5000
Qwik Chek Food Mart in White Hall	\$2500
